Education

Michigan State University **August 2024 – May 2028**
Bachelor of Science Degree in Mechanical Engineering GPA: 3.728 *East Lansing, MI*

- Dean's List Recipient — Fall semester 2025 and Spring semester 2026
- College of Engineering Admission — Fall semester 2025

Technical Skills

3D Design, Assembly, Technical Drafting: Fusion 360, NX, TinkerCAD
Prototyping: Soldering, Power Tools, 3D Printing
Technical Coursework: Calculus, Statics, Physics

Projects

Fusion Reactor Vacuum Chamber | *Autodesk Fusion, 3D Printing* **June 2026 — August 2026**

- Designed and prototyped a vacuum chamber capable of instrument integration and maintaining high-level vacuum, to be installed as the core of a functional fusion reactor.
- Collaborated with MSU Fusion Project team members throughout conceptual and planning phase of project, established design parameters and requirements. Performed in depth chamber and vacuum component research utilizing scientific data and commercial vacuum supply databases.
- Utilized Fusion 360 to design initial and subsequent chamber models. Worked with team members to revise design iterations creating a final producible design.
- Drafted cohesive technical drawings of components and chamber. Prepared components for 3D printing producing a tactile model.

Claw Robot | Hardware Assembly, Lab Reporting **Febuary 2025 — March 2025**

- Prototyped and assembled remote controlled claw robot designed for testing in obstacle course.
- Worked alongside group members in class based setting determining project requirements and goals.
- Tested and compared quality and performance of different designs and materials.
- Assembled and tested final robot design in successful navigation of obstacle course, meeting project and team goals.
- Collaborated with project group in writing final cohesive lab report including trial data and use case projection.

Extracurricular

MSU Fusion Project **May 2026 – Present**
Team Member *Michgan State University*

∗ Worked alongside a multidisciplinary group of peers to design and build a functional fusion reactor.
∗ Collaborated with team members in focused meetings revising goals and member roles.
∗ Utilized online crowdfunding to finance project materials and required services.

Work Experience

Starbucks **March 2026 – Present**
Barista *East Lansing, MI*

∗ Gained on-campus employment experience working alongside other students in a service environment necessitating attention to food safety.
∗ Mediated a work experience with a punctual and consistent record while maintaining focus on a successful semester, meeting academic goals.

Seven Steps Up **June 2020 – July 2020**
Stage Hand *Grand Haven, MI*

∗ Worked alongside other stagehands in the process of hosting several large-scale productions. Aided in group-based tasks, including loading and unloading of stage equipment, and careful setup and tear down of entire sound and light systems.
∗ Maintained focus and careful consideration of the schedule and adherence to strict safety precautions.
