Education

Michigan State University **August 2024 – May 2028**
B.S. Mechanical Engineering GPA: 3.728 *East Lansing, MI*

- Dean's List Recipient — Fall semester 2025 and Spring semester 2026
- College of Engineering Admission — Fall semester 2025

Technical Skills

CAD & Design: Autodesk Fusion 360, Siemens NX, Tinkercad, 3D Modeling, Technical Drawing
Fabrication & Prototyping : 3D Printing, Soldering, Power Tools, Hardware Assembly
Engineering: Mechanical Design, Design Iteration, Technical Documentation
Coursework: Calculus, Statics, Physics

Extracurricular

MSU Fusion Project **May 2026 – Present**
Team Member *Michigan State University*

- Multidisciplinary group of MSU students working together to build a functional Fusion Reactor.
- Collaborated with team members in focused meetings revising goals and project designs.
- Utilized online crowdfunding to finance project materials and required services.

Projects

Fusion Reactor Vacuum Chamber | *Autodesk Fusion, 3D Printing* **June 2026 — August 2026**

- Designed and prototyped a vacuum chamber capable of instrument integration and maintained high-level vacuum, to be installed as the core of a functional fusion reactor.
- Collaborated with MSU Fusion Project team members to establish design requirements and parameters; researched vacuum-chamber components using scientific data and commercial supplier databases.
- Utilized Fusion 360 to develop and iterate chamber models, incorporating team feedback to produce a final design.
- Created technical drawings for components and chamber. Prepared and scaled components for 3D printing to produce a physical prototype.

Claw Robot | Hardware Assembly, Lab Reporting **February 2025 — March 2025**

- Prototyped and assembled remote-controlled claw robot designed for obstacle-course testing.
- Worked alongside group members in class-based setting to determine project requirements and goals.
- Tested and compared the performance of multiple designs and materials.
- Assembled and tested final robot design in successful navigation of obstacle course, meeting project and team goals.
- Collaborated with team members to document test results in a final technical lab report including trial data and use case projection.

Work Experience

Starbucks **March 2026 – Present**
Barista *East Lansing, MI*

∗ Work effectively in a fast-paced environment while adhering to safety and quality standards.
∗ Maintained a consistent work record while balancing employment with academic responsibilities.

Seven Steps Up **June 2020 – July 2020**
Stage Hand *Grand Haven, MI*

∗ Assisted with setup and teardown of sound and lighting systems for large-scale productions.
∗ Loaded and unloaded production equipment while adhering to strict safety procedures and production schedules.
